

THE FACE OF
BREAST AUGMENTATION

Leopoldo Baccaro, M.D. is a board-certified plastic surgeon who specializes in aesthetic surgery of the breasts that goes beyond the traditional approach of breast implant surgery. Known as the “hybrid” breast augmentation, he uses a combination of modern techniques, such as fat grafting and an internal bra, to create a beautiful décolletage with long-lasting results. The goal is to design braless cleavage tailored to modern feminine fashion and our Floridian beach lifestyle.
